INTERNAL TRADE SECRETARIAT 2000-2001 ANNUAL REPORT

October 2001

Transmittal Letter to the Committee on Internal Trade

I am pleased to submit to you the Internal Trade Secretariat's Annual Report for the Agreement on Internal Trade (AIT) for the period April 1, 2000 to March 31, 2001.

During this reporting period, the Parties to the Agreement continued their efforts to fully implement the AIT. In 1999, Nunavut became Canada's newest territory and, in the course of the following year, procedures were put in place to provide the Nunavut minister and officials with observer status on all activities regarding the AIT pending a decision by Nunavut regarding the accession of the territory to the AIT.

Increased transparency emerged as the theme for the major activities undertaken during the reporting period. Among the more noteworthy activities under that theme are the following:

- The Committee on Internal Trade (CIT) met in April 2000, its first meeting since February 1998. At that meeting, ministers agreed to hold an annual meeting of the CIT in the last week of April each year.
- A major consultations project on improving internal trade was initiated with three regional meetings in Saskatoon, Montreal and Moncton during October and November 2000. Planning for a National Conference, to be held in late May 2001, was well underway by March 31, 2000.
- MARCAN, a new website with information about accessing public sector procurement opportunities across Canada was developed by the Secretariat and became operational in February 2001.
- Tables and charts on reported federal, provincial and territorial government procurement since the coming into force of the Agreement in 1995 were developed and posted on the Secretariat website.
- New procedures were introduced in the Secretariat to ensure the timely publication of the Annual Report.

The April 1, 2000 to March 31, 2001 reporting period came to a close as preparations were gearing up for the CIT annual meeting in late April 2001 and for the National Conference on improving internal trade slated for late May 2001.

INTERNAL TRADE SECRETARIAT 2000-2001 ANNUAL REPORT

1) Highlights of the Year in Review

During 2000/2001, the Parties to the Agreement on Internal Trade (AIT) continued their efforts to fully implement the Agreement by pursuing the negotiations mandated by the Agreement and necessary for concluding the outstanding obligations in the Agreement. In total, officials held over 25 meetings and over 100 conference calls during the year in pursuit of the objectives of fully implementing the AIT and of looking at the future of the AIT and at ways for improving internal trade.

In terms of the specific activities undertaken, the highlights for this year were:

- continuing negotiations to reduce the number of government entities excluded from the procurement rules;
- implementing MARCAN, a website which lists and provide links to Canadian public sector websites that may publish tenders;
- continuing negotiations to clarify the Code of Conduct on Incentives;
- completing the work toward the achievement of full compliance with the labour mobility obligations of the AIT (Note: in the Social Union Agreement of February 4, 1999, First Ministers, except for the Premier of Quebec, agreed that entities subject to the AIT must be in full compliance with its provisions by July 1, 2001);
- initiating the implementation of an agenda for further cooperation on consumer issues beyond the now completed AIT requirements;
- continuing work with the Canadian Standards Association to develop a Canadian quality assurance standard for the procurement of computers by governments;
- continuing negotiations to resolve the outstanding issue in the Energy Chapter concerning the nature and extent of carve-outs for regional economic development programs;
- implementing the first phase of a major public consultations project on improving internal trade by holding 3 regional round tables in Saskatoon, Montreal and Moncton; and
- developing tables and charts showing reported government procurement since the coming into force of the AIT for inclusion on the Secretariat's website;

In 2000/2001, 33 disputes were formally initiated using the dispute settlement mechanisms provided for under the Agreement. Of these, 19 had been addressed by year end and 14 were pending. In total, 122 disputes have been filed between the time the AIT came into force in July 1995 and the end of this reporting period, of which 96 have been resolved, 4 are inactive and 22 are pending. Further, the average length of time to dispose of a

INTERNAL TRADE SECRETARIAT 2000-2001 ANNUAL REPORT

dispute has been steadily dropping, from 5.3 months in 1995/96 to 3.5 months in the current reporting period. This results in an average of 4.1 months over the time since the Agreement came into effect.

The following sections of this report provide details of the above and other activities undertaken under the AIT during the period 2000/2001.

2) Overview of the Agreement on Internal Trade

A) Contents of the Agreement

The Agreement on Internal Trade (AIT) is an agreement among the federal, provincial and territorial governments (with the exception of Nunavut) to reduce and eliminate barriers to the free movement of people, goods, services and investment within Canada.

The AIT provides:

- **general rules** which prevent governments from erecting new trade barriers and which require the reduction of existing barriers in areas covered under the Agreement;
- **specific obligations governing the conduct of governments in key economic sectors** such as government purchasing, investment and labour mobility;
- for the **streamlining and harmonization of regulations and standards** in areas such as transportation and consumer protection;
- a **formal dispute resolution mechanism** that is accessible to governments, as well as individuals and businesses, under certain conditions; and
- **commitments to further liberalize trade** through continuing negotiations and specified work programs.

B) Guiding Principles

The AIT is grounded on six general rules established to prevent governments from erecting new trade barriers and to reduce existing barriers:

- **Non-Discrimination**
Establishing equal treatment for Canadian persons, goods, services and investments.
- **Right of Entry and Exit**
Prohibiting measures that restrict the movement of persons, goods, services or investments across provincial or territorial boundaries.
- **No Obstacles**
Ensuring that federal/provincial/territorial government policies and practices do not create or sustain obstacles to trade.

INTERNAL TRADE SECRETARIAT 2000-2001 ANNUAL REPORT

- **Legitimate Objectives**
Ensuring that federal/provincial/territorial non-trade objectives which may cause some deviation from the above guidelines have a minimal adverse impact on interprovincial trade.
- **Reconciliation**
Providing the basis for eliminating trade barriers caused by differences in standards and regulations across Canada.
- **Transparency**
Ensuring information is fully accessible to interested businesses, individuals and governments.

C) Sectoral Chapters

The AIT focuses on reducing trade barriers within eleven chapters:

- **Procurement**
Eliminating local price preferences, biased technical specifications, unfair registration requirements and other discriminatory practices for non-resident suppliers in order to ensure equal access to procurement for all interested Canadian suppliers. The negotiations for extending this chapter to the MASH sector (including municipalities, municipal organisations, school boards, and publicly-funded academic, health and social services) were completed in 1998 and the provisions implemented in 1999.
- **Investment**
Preventing discriminatory treatment of Canadian business according to head-office location, limiting local residency requirements, prohibiting local content and purchasing conditions and standardizing corporate registration and reporting requirements in order to ensure Canadian firms are free to make business decisions based on market conditions.
- **Labour Mobility**
Eliminating the current barriers of residency, certification and professional standards within individual provinces in order to enable qualified workers - such as accountants, lawyers, construction and tradespeople - to practice their occupation anywhere in Canada.
- **Consumer-Related Measures and Standards**
Reconciling the varying consumer protection requirements of different provinces and territories which act as non-tariff barriers in order to allow Canadian firms to capitalize on economies of scale by servicing larger markets with the same products.

INTERNAL TRADE SECRETARIAT 2000-2001 ANNUAL REPORT

- **Agricultural and Food Products**
Working to remove technical barriers between provinces, such as differing product and grade standards, and plant and animal health regulations. Reviewing supply management systems for dairy, poultry and eggs as well as western grain transportation and agricultural safety net programs and addressing the internal market aspects of these programs.
- **Alcoholic Beverages**
Prohibiting discriminatory practices by liquor control boards and retail outlets of the provinces and territories in areas such as product listing, pricing, distribution and merchandising.
- **Natural Resources Processing**
Prohibiting the introduction of new barriers relating to the processing of forestry, fisheries and mineral resource products.
- **Energy**
Harmonizing the interprovincial trade rules relating to of all forms of energy. (The Chapter is still under negotiation).
- **Communications**
Ensuring equal access to and use of public telecommunications networks and public telecommunications services.
- **Transportation**
Harmonizing the regulations applicable to commercial vehicles such as safety standards, weights and dimension rules, bills of lading, tax administration, and operating authority requirements.
- **Environmental Protection**
Ensuring that federal, provincial or territorial environmental protection measures do not become non-tariff trade barriers.

D) **Dispute Resolution**

One of the key concepts of the Agreement on Internal Trade is to maximize cooperation and minimize conflict. Therefore progressive stages of dispute resolution procedures have been put in place to address the differences that may arise among governments, as well as those between governments and individuals.

INTERNAL TRADE SECRETARIAT 2000-2001 ANNUAL REPORT

i) **Sectoral dispute avoidance and resolution processes**

Every chapter except one has its own dispute settlement process. This can be initiated by an individual outlining the problem in writing to the Internal Trade Representative of the province or territory in which he or she resides or by a government (federal, provincial or territorial) initiating consultations where that government has concerns about the practices of another government. The governments involved will consult and try to find an acceptable solution. If this process is exhausted without success, the issue moves to the formal dispute resolution process under Chapter Seventeen of the Agreement.

ii) **Formal dispute resolution procedures under Chapter Seventeen**

For an individual or business, this procedure can be approached in two ways:

- An individual or business may request that their government pursue the **government-to-government** dispute resolution process. This process may lead to a request for the assistance of the Committee on Internal Trade and a dispute resolution panel of experts.
- If the government chooses not to step in, an individual or business may proceed under the **private party-to-government** dispute resolution process and request consultations. At this stage the complaint will be assessed by an independent screener who will determine the merit of the request. If a complaint has merit, a panel is formed.

Assuming the panel stage of the dispute process is reached, the panel will hear the dispute and will produce its report within 45 days from the end of the hearings. If the government complained against does not act to implement the panel's recommendation within 60 days, the report is made public. If the matter has not been resolved in a year, the government that made the complaint may take retaliatory action provided it is in the same sector as the measures found to be inconsistent with the Agreement and is of equivalent economic impact.

E) **The Organizational Structure of the Internal Trade Agreement**

i) **The Committee on Internal Trade**

The Agreement establishes a Committee of Ministers to oversee its implementation and operations. During the period covered by this report, the Committee was co-chaired by Canada and Ontario. The Agreement calls for an annual meeting at the call of the chairs.

The

INTERNAL TRADE SECRETARIAT 2000-2001 ANNUAL REPORT

since the Agreement came into effect and the end of this reporting period (in November, 1995; March, 1996; June 1996; February 1998; and in April 2000). In addition, conference calls have been arranged, as necessary, to deal with complaints launched under the dispute resolution procedures of the Agreement.

ii) Internal Trade Representatives

Each government has appointed Internal Trade Representatives. This committee of officials is responsible for overseeing the operation of the Agreement and the work program set out in the Agreement. Internal Trade Representatives meet as required, usually about six times a year. A list of Internal Trade Representatives is included in Section 4 of this report entitled "For More Information..."

iii) Other Committees Under the Agreement

Several Chapters of the Agreement create committees of officials to carry out specific responsibilities outlined in the Chapter, or assign responsibilities to existing committees of officials or to Ministerial level forums. For example, the Labour Mobility Chapter assigns overall responsibility for implementation of the Chapter to the Forum of Labour Market Ministers.

Appendix A lists the various committees with responsibilities related to the Agreement.

iv) The Internal Trade Secretariat

The Internal Trade Secretariat is responsible to the Committee on Internal Trade for activities related to the administration and operation of the Agreement. The Secretariat supports the Internal Trade Representatives and the various committees under the Agreement by coordinating the work program to implement and extend the Agreement and by managing the dispute resolution process. In addition, it provides information about the Agreement to the public.

Appendix B provides information on the staff of the Secretariat. Appendix E contains the audited Financial Statements for the Secretariat as of March 31, 2001.

F) Obligations under the Agreement

The Internal Trade Secretariat keeps track of progress in implementing the Agreement on Internal Trade. In this regard, the Secretariat has prepared the two charts found in Appendix D. The first chart identifies outstanding obligations that are the responsibility of the Parties to the Agreement as a whole and groups the obligations by chapter and category. The second chart lists outstanding obligations that are the responsibility of individual Parties and that are not yet discharged.

3) Chapter by Chapter Progress

Chapters One to Four

Chapters 1 to 4 of the Agreement on Internal Trade deal with *Operating Principles, General Definitions, Constitutional Authorities and General Rules*.

OUTSTANDING OBLIGATIONS⁶

Introduction

The Internal Trade Secretariat keeps track of progress in implementing the Agreement on Internal Trade. As part of this monitoring task, two charts are prepared. Table A-“Outstanding Obligations - General” reports on the obligations outstanding as of October 2001 that are the responsibility of the Parties as a whole, including those obligations which are the responsibility of other ministerial councils. The second table, Table B- “Outstanding Obligations - Parties”, tracks those outstanding obligations that are the responsibility of individual Parties.

AUDITORS' REPORT

To the Management Board of the
Internal Trade Secretariat

We have audited the balance sheet of the **Internal Trade Secretariat** as at March 31, 2001 and the statement of revenue and expenditures and net assets for the year then ended. These financial statements are the responsibility of Internal Trade Secretariat management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by Internal Trade Secretariat management, as well as evaluating the overall financial statement presentation.

As outlined in note 8 to the financial statements, the **Internal Trade Secretariat** does not capitalize and amortize its capital assets. In this respect only, the financial statements are not in accordance with Canadian generally accepted accounting principles.

In our opinion, except for the effects of the failure to capitalize and amortize capital assets as described in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the **Internal Trade Secretariat** as at March 31, 2001 and the results of its operations for the year then ended in accordance with Canadian generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS

March 31, 2001

1. STATUS AND NATURE OF ACTIVITIES

The Internal Trade Secretariat is an unincorporated association which was established on August 8, 1995, as required by the Agreement on Internal Trade. The objective of this Agreement is to reduce and eliminate, to the extent possible, barriers to the free movement of persons, goods, services, and investments within Canada.

The Internal Trade Secretariat's role is to provide administrative and operational support to the Committee on Internal Trade and other working groups or committees set up to implement the Agreement on Internal Trade.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared by Internal Trade Secretariat management in accordance with Canadian generally accepted accounting principles, except as noted below. The financial statements have, in management's opinion, been prepared using careful judgement within reasonable limits of materiality.

Capital assets

Capital assets are charged to expenditures in the year of purchase. During the year \$10,321 [2000 - \$12,196] of capital assets were expensed. Generally accepted accounting principles require that capital assets be capitalized and amortized over their estimated useful life. The effect of this policy is described in note 8.

Revenue recognition

The Internal Trade Secretariat follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Contributions receivable are recognized if the amount can be reasonably estimated and ultimate collection is reasonably assured.

	2001	2000

	450,091	372,643

Deduct interest earned on advances from the Federal Government	(3,271)	(4,900)
	397,628	332,937
Deferred contributions, end of year	52,463	39,706

4. CONTRIBUTIONS - PROVINCES AND TERRITORIES

Based on the Agreement on Internal Trade, the Internal Trade Secretariat is to receive contributions to cover 50% of eligible expenditures incurred during the year from the Provinces and Territories.

The details of contributions from the Provinces and Territories for the year are as follows:

	2001	2000
	\$	\$
Deferred contributions, beginning of year	137,827	15,767
Contributions received during the year	369,965	457,343

NOTES TO FINANCIAL STATEMENTS

March 31, 2001

5. LEASE COMMITMENTS

The Internal Trade Secretariat is committed to make minimum annual rental payments under a lease which expires January 31, 2006 as follows:

	\$
2002	18,396
2003	18,396
2004	18,396
2005	18,396
2006	16,863

In addition, the organization is responsible for their share of common area costs which currently totals approximately \$1,800 per month.

6. ECONOMIC DEPENDENCE

The operations of the Internal Trade Secretariat are dependent upon the continued funding from territorial, provincial and federal jurisdictions.

7. STATEMENT OF CASH FLOWS

A statement of cash flows has not been prepared as it provides no additional information.

8. CAPITAL ASSETS

The Internal Trade Secretariat charges capital asset additions to expenditures in the year of purchase. In this respect, the financial statements are not in accordance with generally accepted accounting principles which require that capital assets be capitalized and amortized over their useful life. The estimated useful life of the capital asset components which include computers, furniture and office equipment is usually 5 years. If capital assets had been capitalized and amortized over their estimated useful life of five years, the capital assets expensed for the current year would have been reduced by \$10,321 [2000 - \$12,196], amortization expense would have been increased by \$19,376 [2000 - \$33,426], contribution revenue would have been increased by \$9,055 [2000 - \$21,229], and capital assets and deferred contributions on the balance sheet would each have been increased by \$16,144 [2000 - \$25,199].
