Notes

**** Total des marchés publics : Certaines Parties comptent les « exceptions » parmi les marchés publics « égaux ou supérieurs aux seuils » bien que d'autres les comptent comme catégorie distincte. Dans ce dernier cas, la valeur totale des « exceptions » a été ajoutée aux chiffres figurant sous la colonne « Total des marchés publics ».**

Note 1 Les exceptions totalisant de 3 426 920 \$ n'ont pas été décomposées selon les catégories requises.

Note 2 En 1995-1996 seulement, l'Ontario et le Québec ont fait rapport sur les mesures transitoires indiquées dans colonne 1 de l'annexe 508.3. Ces mesures ont cessé d'avoir effet le 1 janvier 1996.

Note 3 Le rapport n'inclut pas tous les marchés publics. De ceux énumérés, 16 041 389 \$ (dont 15 140 803 \$ est moins du seuil et 900 586 \$ dépasse le seuil) n'ont pas été décomposés selon les catégories requises. Néanmoins, ce montant est ajouté au total des marchés publics. De plus, des exceptions totalisant 47 452 313 \$ n'ont pas été décomposées selon les catégories requises.

Note 4 Les données ne sont pas décomposées selon les catégories requises.

Note 5 Aucune décomposition n'a été entreprise entre les exceptions faites aux termes de l'article 506(11)(a) et celles faites aux termes de l'article 506(12)(a).
